17 colours
5 design covers
3 surfaces

FACTORY PRE-ASSEMBLED. SIMPLE AND FAST INSTALLATION.

The 4-in-1 system consisting of shower surface, sealing system, sloping support element and channel eliminates multiple installation steps and the installation frame. For the easiest installation of floor-level shower surfaces imaginable.

SHOWER SURFACE

Made of superior KALDEWEI steel enamel, the material is known and appreciated for its excellent qualities, such as strength, toughness, robustness, hygiene and exceptional cleaning properties. The seamless shower surface reliably protects against water damage.

ALL-ROUND SEALING TAPE

The ultra thin and flexible material integrates easily and securely into the bathroom's composite sealing, complying with DIN 18534.

easy & secure

KALDEWEI steel enamel

impermeable & sturdy

SUPPORT ELEMENT

The sturdy support element with its integrated slope of 2% ensures optimal and safe water run-off without the need to make an elaborate sloping screed. Cutouts in the support element for the waste channel reduce the overall height of the system.

flat & ultra flat

LOW HEIGHTS

NEXSYS is the optimal solution for floor-level shower surfaces in floors with limited installation depth. Waste channels are available in a choice of two designs: ultra flat (fitting height of 86 - 100 mm depending on the NEXSYS size) or with water seal height 50 mm to DIN 1253-1 (106 - 190 mm depending on the NEXSYS size).

SIMPLY COMPLETE. SIMPLY INGENUOUS.
CHANNEL AND BOARD MEET SHOWER SURFACE.

channel design
flush fitting
level standing area
complete system

seamless surface
robust
easy to clean
durable

= NEXSYS

NEXSYS – a completely revolutionary concept; there is no quicker and easier way to fit a floor-level shower surface with waste channel. Because NEXSYS is not simply a shower surface but rather a complete, installation-ready system.

The components are already connected and can be installed immediately – including integrated waste channel and sturdy sloping support element. Therefore, to describe NEXSYS as a small revolution would be an understatement.

UNIVERSAL USE

INSTALLED IN 4 STEPS.

1 Position the waste outlet in the level screed cutout (nominal size of the shower surface + 20 mm) and connect in the same way as conventional shower surfaces.

2 For height adjustment, create a screed base or – without need for drying – use a rigid foam substructure. Refer to the installation instructions or use our interactive online planning aid to determine the correct height.

3 Position the NEXSYS system and connect the shower channel with the waste outlet. Next, integrate the pre-assembled sealing strips into the composite sealing and finish the tiling.

4 Finally, fit the design cover – done.

For detailed steps refer to the enclosed installation instructions or check online at www.kaldewei.com

BEST CHOICE FOR YOUR CUSTOMERS: KALDEWEI PERFECTION.

SLIP RESISTANT: KALDEWEI SECURE PLUS

SECURE PLUS from KALDEWEI is an anti-slip finish delivering ideal properties.

SECURE PLUS is permanently fired into the shower surfaces for optimised safety underfoot.

The KALDEWEI SECURE PLUS enamel, which covers the entire surface of the product, is virtually invisible, but slip-resistant nonetheless.

KALDEWEI SECURE PLUS meets various anti-slip standards including Quality Class B for barefoot wet areas (DIN 51097). The surface itself has a subtle feel to it and comes in the refined look of the COORDINATED COLOURS COLLECTION.

CLEAN: KALDEWEI EASY-CLEAN FINISH

With the optional easy-clean finish designed by KALDEWEI, the water simply rolls off the shower surface taking virtually all dirt and lime particles with it.

Even dried-on water spots and lime deposits can be easily removed.

And because you only need a soft, wet cloth instead of aggressive cleaners, the easy-clean finish is a clean affair for the environment, too.

Easy-clean finish is a surface finish that is permanently fired into the KALDEWEI steel enamel. It is characterised by unique durability and long life. Its non-stick properties are guaranteed to remain virtually intact for 30 years even when wiped once or twice a day.

Easy-clean finish is available for all KALDEWEI shower surfaces.

SECURE 

AS UNIQUE AS YOUR DESIRES: OUR SURFACE AND COLOUR OPTIONS.

The perfect bathroom means different things to different people. Our colour palette therefore offers great freedom of design.

This allows you to design the bathroom based entirely on your customer's ideas. Creating for them a place of pure comfort and wellbeing.

ALPINE WHITE

alpine white

SANITARY COLOURS

bahamabeige

manhattan

pergamon

black

The collection of matt colours, combined with professional surface technology, underlines the special character of our shower surfaces, setting new standards in sensory awareness and quality.

In keeping with the current trends in tiling, the colours of the flush-fit showers in the COORDINATED COLOURS COLLECTION are perfectly coordinated to the tile colours available in the shops.
