# RUNTAL ALBAN

RUNTAL DESIGN STUDIO

**runtal**

**RUNTAL ALBAN.** A design concept made for purists – precise lines, flat sides and right angles. The angular radiator with a practical side: slide on and hang up towels effortlessly with just one hand. Connected to the central heating this designer radiator keeps the bathroom warm and comfortable at all times. RUNTAL ALBAN: the design version made from hand-polished, high-quality stainless steel. Simple, elegant design – and warm towels whenever you need them.

## RUNTAL ALBAN RUNTAL DESIGN STUDIO

Runtal has been combining engineering expertise with architectural flair since 1953. The tradition of technical innovation and functional design is actively nurtured and developed by the Runtal Design Studio (RDS).

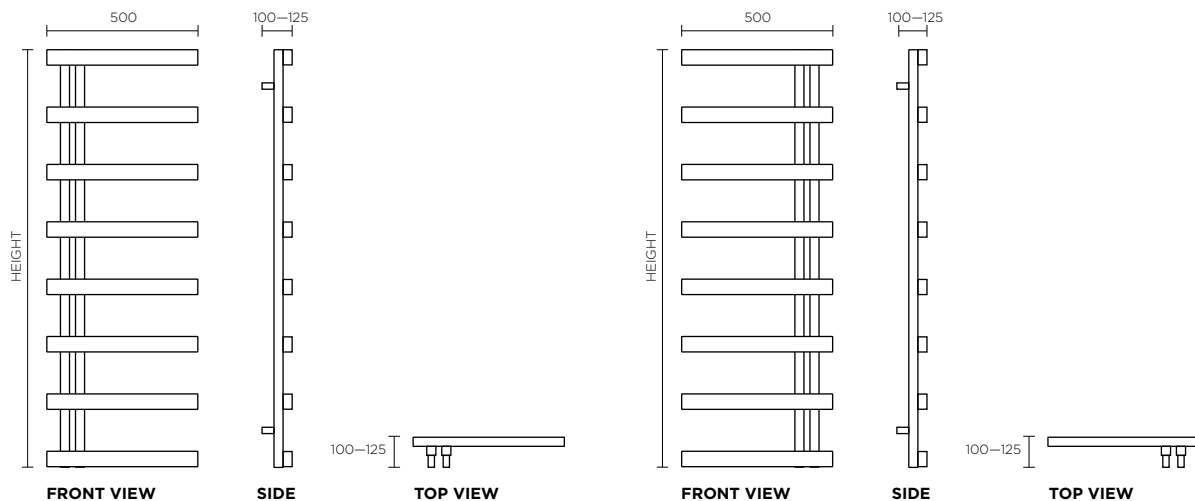

RDS holds in trust the creative heritage of the company's founders, Egon Runte and Jürg Altherr, defines the modern design of the Runtal brand and is responsible for all design developments. It also collaborates with renowned international designers, commissioning feasibility studies and designs for new heating products. In addition, it examines technical and design proposals to evaluate their practicality, market potential and suitability for the brand.

By developing new materials and finishes, RDS creates innovative and practical solutions that enable sustainable use of energy and water. This is what gives innovative Runtal radiators their unique design.

And the result is simple, refined and efficient designs that employ the very best craftsmanship and materials. Swiss design, which first came to international prominence in the 1950s, is currently experiencing a renaissance and is rightly considered a classic tradition.

# TECHNICAL SPECIFICATIONS

## PRODUCT DESCRIPTION

A modern, unfussy radiator design whose geometric shapes allow it to blend perfectly into any bathroom. Not only that, but RUNTAL ALBAN features a highly practical benefit: because it is open on one side, even very thick towels can be easily slid on to the square tubes as a convenient way of drying or warming them. The high-quality stainless steel surface is easy to clean, ensuring maximum hygiene. RUNTAL ALBAN is available with the open end on the left or right, enabling flexible installation.

## TECHNICAL DATA

Model type	ALR-100-050 ALR-140-050 ALR-180-050
Height	1000/1380/1760 mm
Length	500 mm
Connections	2x½" bottom connections, connection dimension 50 mm
Valves	Hotcube Kit 790 chrome
Colour	Stainless steel, hand-polished
Heat output	256/332/417 W
Standard	CE
